PRACTISE CASE

Juan has ASD. He is a 13 year old who is in 6th grade. Two years ago he had to change citie due to the work of his parents as they are heads of an important multinational. In his previous school he had a friend, but when he moved to another city he hadn't managed to make any friend and at break he had a bad time. The same has happened with studies, when he changed school he repeated 6th grade.

Although he has repeated, he is getting very bad notes in all subjects and can't focus anything in class or at home.

- a. What could be done so that Juan improves his performance in school?**
- b. How could recesses be approached so that Juan can socialize?**
- c. What could Juan's parents do to help him at home?**
